## Profile Summary

---

Proactive problem solver with excellent communication abilities. Deep knowledge in web development (including JavaScript, HTML-CSS and React). Also Having good command over Data Structure and algorithm using Java and basic debugging knowledge in C++, PYTHON. I'm Seeking opportunities to leverage my technical and leadership skills in a dynamic and growth-oriented organization.

## Internships

---

### Data Analyst Internship — KultureHire

*May 2024 - Present*

- Conducted data analysis to provide insights and recommendations for improving company operations.
- Utilized various data analysis tools and techniques to interpret data and provide actionable insights.

### Core Java Backend Internship — CloudCounselage Pvt. Ltd.

*Jan 2024 - Apr 2024*

- Designed and implemented backend services and APIs using Core Java, reducing server response time by 20
- Developed RESTful web services for data exchange, ensuring seamless communication between client and server.
- Contributed to database schema design and optimized queries, improving data retrieval efficiency by 30
- Participated in team meetings and contributed to the development lifecycle.

### Web Development Internship — Unified Mentor

*Aug 2023 - Nov 2023*

- Built and maintained web applications using React.js and Node.js, increasing application performance by 25
- Designed and implemented responsive UIs with React.js, improving user engagement by 15
- Developed server-side logic and integrated APIs with Node.js, ensuring robust data handling and security.
- Worked closely with the development team to design and implement new features, enhancing application functionality.

### Internship — .NET, C# — Profound Edutech, Pune

*Feb 2023 - Jun 2023*

- Developed and maintained web applications using .NET and C#.
- Implemented CRUD operations and ensured seamless data management.
- Assisted in the design and development of software solutions.
- Participated in code reviews and debugging sessions to improve code quality.

## Technical Skills

---

- **Programming Languages:** Python, C++, Core Java
- **Web Development:** HTML, CSS, JavaScript, React
- **Cloud Platform:** AWS
- **Tools and Technologies:** Machine Learning, AI, Data Analysis, Maven, Git
- **Soft Skills:** Leadership, Team Management

## Education

---

### Bachelor of Engineering in Computer Science

Shri Sant Gajanan Maharaj College of Engineering, Shegaon  
*Aug 2018 - Jun 2022*  
Secured CGPA: 8.45/10

### Higher Secondary Certificate (HSC)

Tripura Science College, Latur  
*Apr 2016 - Apr 2018*  
Secured Percentage: 76.92%

### Secondary School Certificate (SSC)

Lokhit Upper Primary School, Manora  
Secured Percentage: 84.60%

## Major Projects

---

### Smart Health Consulting and Online Health Shopping Portal

- Developed a portal addressing modern health issues using smart health consulting systems.
- Implemented machine learning algorithms to classify diseases based on user input.
- Achieved improved user satisfaction by providing accurate health recommendations.

### Weather Prediction Website

- Created a website to estimate weather for Shegaon to assist local farmers.
- Utilized weather prediction algorithms for accurate forecasting.
- Enhanced agricultural planning and decision-making for local farmers.

### Face Recognition System

- Developed a system for face and emotion recognition.
- Implemented facial recognition algorithms for accurate identification.
- Improved security and user experience through accurate face detection.

## **Book Library Application**

- Developed a fully functional CRUD application enabling Create, Read, Update, and Delete operations from the frontend.
- Utilized React.js for the frontend, Node.js for the backend server, and MySQL for the database.
- Ensured seamless integration and data management between frontend and backend.

## **Java Spring Boot REST API Development**

- Developed a comprehensive REST API application using Java Spring Boot.
- Implemented CRUD operations for user management, category APIs, and post APIs with relationships.
- Ensured security using Spring Security with Basic Auth and JWT and implemented role-specific access.

## **Certifications**

---

- Accenture North America - Data Analytics and Visualization Job Simulation (Forage)
- Data Storytelling for Data Professionals (Udemy)
- Programming for Everybody (Coursera)
- AWS Cloud Practitioner Certificate (AWS)
- SQL (Udemy)

## **Achievements and Other Activities**

---

- Captain of one of the four factions in high school.
- Represented college in regional debate competitions.
- Led the football team in regional championships.
- Junior chess champion in high school.
